

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

THE AMERICAN BOY

is a handsomely printed and elaborately illustrated thirty-two page monthly magazine, brimful of inspiring and helpful matter for American youths.

Its clean, wholesome character first attracted the attention of the directors of The Agassiz Association, and arrangements were soon consummated making THE AMERICAN BOY the official organ of the association.

SUBSCRIPTIONS—The yearly rate on single subscriptions is \$1.00.

Send to H. H. BALLARD, Pittsfield, Mass.

FOR SALE—Fifty choice specimens of New South Wales Mosses, \$5.00. Rev. W. W. Watts, "The Manse," Ballina, New South Wales, Australia.

ILLUSTRATED GLOSSARY OF BRYOLOGICAL TERMS, by A. J. Grout, Ph.D. 14 pages in neat pamphlet form, 15 cents; two for 25 cents; ten for \$1.00.

READY EARLY IN NOVEMBER

MOSES WITH A HAND-LENS. A non-technical handbook of the common and more easily recognized mosses. By A. J. Grout, Ph. D. Price, \$1.10 postpaid. As the title indicates, the book is intended to enable one to study mosses without a compound microscope. About 100 species are included. There are nearly 50 figures included in the text and several full page plates. The article on Weissia in this issue is taken from that work.

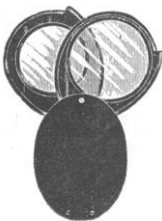

Published by the Author at 300 LENOX ROAD, BROOKLYN, N. Y. CITY.
Checks must contain 10 cents extra for collection.

MOSES FOR DISTRIBUTION.
